

# Physics Graduate Students Committee

Proposal of 2022–2023 Term

# All About PGSC

**Our purpose is to aid in the success of every physics graduate student at USF.**

- We will foster an environment of research excellence, professional development, and social engagement along with academic achievement.
- We will maintain an active student community that is welcoming to all and celebrates students' accomplishments.
- We will also form a coherent voice for the physics graduate students at USF to serve as a conduit for communication between students and the physics department.

# Get to Know Our Team

**Yen Pham**

**President**
